Later reports from the hail storm of Monday night of last week are to the effect that it was very destructive out northwest of Muscle Fork post-office. John Scott, Wes Ellis, Bush Eberhart, John Palmer, Dr. Oliver McGruen and others were heavy losers. The hail fell so thick and fast that trees were stripped of their leaves, corn was badly damaged, oats were literally threshed in the field by the pelting hail stones, and garden truck was ruined. The hail was followed by a terrific rain almost approaching a water-spout. The roads were fearfully washed, and especially so over about Guttridge Mills, but no hail fell in the latter vicinity. From the vicinity of Muscle Fork post-office the course of the hail storm was in a northeasterly direction toward Rymnville, and John Palmer says it was reported in his neighborhood that at Rymnville houses were unroofed by the driving hail storm. The storm commenced about 10 or 11 o'clock at night.

That Hatched House.

LOSS'S MILL, July 21st, 1891.

EDITOR COURIER—In your issue of July 9th the citizens of our quiet vicinity were very much amused to read of that wonderful "hatched house," visited by five prominent business men from Salisbury.

If it were not for the fact that such items fly all over the country and give our neighborhood a bad reputation it would not be necessary to contradict it.

Anyone with half an eye can see that something was the matter with those Salisbury business men who "went up to the Chariton to hunt and fish," and were found by the good citizens of Loss's Mill, some eight miles from the Chariton river, in a very queer plight. After seeing many favors in their district, it certainly strikes us as being ungrateful in them to return home and slander a peaceful neighborhood as they have done.

We have no saloons nor any other manufactory of ghosts, and the supposition is that they must have brought the bad spirits with them. The great wonder is that they ever got back without finding snakes in their boots, while their imagination was so distorted as to cause them to see a ten-acre field where there was really only a half-acre lot, and a small vacant house appear like a commanding two-story structure.

This small house was occupied by John Billie last year.

We will inform those "five prominent business men, of Salisbury," that if they knew that they came within a few inches of tumbling off a high bank in the mill pond, they would have had some reason to be scared.

Jack Ewing Killed.

The first fatal accident on the Keytesville street car line occurred Tuesday morning in which Jack Ewing, aged 16 years, lost his life. His neck was broken, and he did not move a muscle after the car passed over his neck. Jack Ewing was the old family "Uncle John" Ewing and had followed his master to town Tuesday morning, and had laid down under the freight car of the Keytesville street car line to rest and enjoy a snooze.

Jack little dreamed of the sad fate that awaited him, when, a short time afterward, the team, hitched to the car, started up, and Jack, crumpled with rheumatism and almost blind, awoke and endeavored to keep from under the car wheels, but to no purpose. A moment later he was no more.

The matter of damages has not yet been settled, but we presume will be satisfactorily adjusted between Mr. Ewing and the Street Railway Co., without getting into the courts.

Let us hope that Jack has gone to a better hunting ground where there are no street car lines.
